I really like the cover picture but the thing i have noticed is what rank do i unlock it and what vehicle can use it. Please help me.. Good paintjobs. Nice paintjob pack!. Using this on my trucks now as soon as I found it I liked it a lot. Using the Lightning bolt and it looks amazing, (as a fan of lightnings in general). Im very happy about it. I would fully reccomend, also for the other ones in it, they're great too. There is nothing much I can say, you can see how it looks, its up to your taste if you like it, not sure how could u dislike it :)

Verdict: 10/10 dlc, fully reccomended, also very cheap even in full price... nice skin

. This is art. Can't say it in another way. These paint-jobs are very nice and they really make you shine in the crowd. With a good customised truck and a nice paint-job you would even be scared to hit an ant or a fly to make your truck dirty. I really like these kind of paint-jobs. I enjoy these kind of paint-jobs on all my trucks.

the quality of the paints are increadibly pixeled lowest graphics settings looks the same as the highest,, wish i could get my money back.. best dlc along with the cabin accessories best paint jobs ever my fave is the smoke puff's as it looks like smoke of a fire 10V10 would buy again. I'll say I like these, but really, its only for those that are highly into this game. Now, with that said, I like the paint jobs. I pfer the water and lava one. But that is only my preference.

However, I rarely see the outside of my truck when playing this game, so this isn't really all that nice for me personally.. Force of Nature :) 1+. Does this DLC work? Yes.

Do the paint jobs look nice? Yes.

Are they worth the price? Well, it depends on how much you pay and how much you use it, so my advice is to buy the one paint job pack you like the most.

However, it only works with all trucks as long as you do not change your chassis to a 8x chassis.

It is technically "all trucks", since they all can have other chassis then 8x, but as player you whould expect that it works with any truck as long as you do not use a mod.. I have recently brought this paint texture pack to put on my trucks which works fine in normal ETS2 but however when you go onto multiplayer it does not seem to be their and to be fair it's with any other paint texture pack you buy apart from the ones the game give you from standard.. So please can someone explain to me can you only get these paints in normal ETS2 or can you use them online and if yes why can't i see them in the upgrade shop, after I have paid for them.. :( ez skinz ez lyf. Interesant .
